

CRYO AB AFTER SALES DEPARTMENT

-

YOUR LONG-TERM SERVICE PARTNER

When you choose a supplier for a long-term relationship, you need a PARTNER who:

- Has a high technical service level and a service-minded staff.
- Has high ability in problem solving and trouble-shooting.
- Has wide experience of products and installations.
- Has a complete training programme.
- Is close to your market.

CRYO AB can offer dedicated crews to meet your needs through our workshop in Gothenburg or on-site

AFTER SALES - NOT JUST HARDWARE

After Sales Service is usually associated with repairs and spare parts. In addition to this the department also runs training activities both at home and abroad.

Service activities

General overhaul of customer tanks and transport tanks:

- change of piping system
- perlite filling
- leak detection/vacuum-pumping
- painting
- change of electrical system
- major repair works, inner and outer vessel

Service repair agreement

If you are interested in having a service repair agreement valid over several years, we have the possibility to offer this as well.

Spare Parts

In our Spare Parts Catalogue or in the Service Manual you will find spare parts for our products. The parts are kept in stock and in case of urgent necessities we can usually send them overnight within Europe by courier service to very favourable prices.

On-site activities

Our skilled and educated personnel can assist you with on-site installations. We have good references from countries all over the world. Start-up supervision and equipment training as well as inspection of traffic damages are further examples of our on-site activities.

Rebuilding of transport tanks:

- chassis-mounted tanks into swap bodies
- semitrailers into chassis-mounted
- mounting of pumping system on ISO containers
- Cryostar pumps maintenance
- LNG-repair

On-site assistance:

- start-up supervision
- on-site repair and overhaul
- inspections
- education and training activities

Start-up & education

We can offer adequate courses and education concerning our products and services in suitable locations with excellent facilities in Gothenburg. Education held at your own site can of course also be arranged.

CONTAINER RENTAL SERVICE

CRYO AB's Service Center in Gothenburg has the tank container fleet required for your LAR-LIN-LOX-LCO₂ and LN₂O services on short or long term rental basis.

Why rent?

- To deal with distribution peaks
- Your own trailer is off the road
- You are waiting for a new trailer

- Emergency product supply

How to rent?

- Contact us by telephone, email or fax
- Rental can start the same day
- Your choice of transport
- Long-term rentals also available.
- CRYO AB takes care of maintenance
- Tanks are always clean and purged

What is available?

- 20-foot ISO tank containers
- 18.000 litres gross capacity
- 4.5 bar, 18 or 23 bar pressure ratings
- With pump and electrical motor
- Pallet tanks: 600 litres, 18 bar
- 8000 litres OWS-containers

Certified for

- ISO 9001

- ASME

MOBILE WORKSHOP UNIT

Service where you need it!

Kjell-Åke Iljin

Ingemar Silvén

Peter Johansson

Jan Vinblad

When required we will send our well-trained team together with a mobile workshop for on-site installations or tank repair/refurbishment jobs.

CRYO AB Service

CRYO AB SERVICE is from our location in Gothenburg, "The port of Scandinavia", serving the whole world. Whenever you need service assistance - in our workshop or on-site - we are prepared to help you with all our knowledge in and around the cryogenic field. Customer tanks, transport equipment, storage and

filling equipment for air gases, CO₂ and LNG are some of our specialities. The service activities are supported by our shipping department to make ourselves an easy choice for our customers. The well established network of forwarders and shipping lines will meet any transport requirements.
